

Build Trust...
Through Transparency...
Collaborate to End Pandemics.!

Dear MBDS Colleagues,

The MBDS (Mekong Basin Disease Surveillance) cooperation is a self-organized sub-regional network commenced in 2001. It is a collaboration effort among six Mekong Basin countries including Cambodia, China, Lao P.D.R, Myanmar, Thailand and Vietnam. It aims to strengthen national and sub-regional capabilities in infectious disease surveillance and outbreak response, especially on 18 currently designated priority diseases including Ebola, MERS, Zika, Malaria and Dengue to rapidly and effectively control them.

MBDS Six Countries Health Ministries are updating current Pandemics COVID-19 related information in following web and social media links.
